PROFESSIONAL SUMMARY

Detail-oriented Software Engineer and Bachelor of Computer Application (BCA) graduate with hands-on enterprise experience in full-stack web development, enterprise system architecture, and agile methodologies. Proficient across Python, JavaScript, React.js, and Node.js ecosystems. Proven track record of designing responsive, user-focused web solutions and collaborating with cross-functional engineering teams to deliver live, client-facing applications.

TECHNICAL SKILLS

Programming:	Python, C, JavaScript (ES6+), HTML5, CSS3
Frameworks & Libs:	React.js, Bootstrap
Databases & Tools:	MongoDB, SQL, Git, GitHub, VS Code
Web Development:	RESTful APIs, Front-End Design, Back-End Architecture, Responsive UI

WORK EXPERIENCE

Cravita Technologies India Private Limited – Jr. Software Engineer (Internship) April 2026 – Present
Shivajinagar, Pune

- Selected to engineer scalable software features for a real-time live enterprise application deployed to production for organizations and group corporate clients.
- Collaborate closely with Program Managers and Team Leaders within an agile sprint ecosystem to implement clean, maintainable code architectures.
- Utilize modern web frameworks to develop intuitive user interfaces while optimizing application load times and runtime execution metrics.
- Participate in daily technical stand-ups, code optimization sweeps, and cross-functional peer reviews to ensure codebase scalability.

EDUCATION

Bachelor of Computer Application (BCA) K.P. Mangalvedhekar Institute of Management, Solapur (KPMIM)	2022 – 2025 CGPA: 7.91 / 10.0
Higher Secondary Certificate (HSC) Walchand College of Arts and Science, Solapur	2020 – 2022 62.50%
Secondary School Certificate (SSC) Siddheshwar High School, Solapur	2020 68.20%

ACADEMIC PROJECTS

Project: Home-Tech-Hub (Full-Stack Web Application) Dynamic Web Solution
Technologies: React.js, Node.js, Express.js, MongoDB, JavaScript, HTML5, CSS3

- Engineered an innovative, responsive web-based platform bridging homeowners with local certified appliance repair technicians.
- Implemented secure user authentication and role-based access control (RBAC) schemas for clients, technicians, and system administrators.
- Developed a real-time service booking engine integrated with live availability tracking, search filtering, and automated confirmation reminders.
- Designed and deployed a scalable MongoDB database architecture to store user profiles, transactional service logs, and client feedback.
- Constructed an interactive Admin Dashboard enabling centralized monitoring of platform metrics, active bookings, and secure payment processing.

CORE COMPLIANCE & SOFT SKILLS

- Professional Competencies:** Software Development Life Cycle (SDLC), Object-Oriented Programming (OOP), Data Structures

• **Core Soft Skills:** Analytical Problem Solving, Active Listening, Adaptability, Rapid Learning, Collaborative Teamwork Page 1 of 1

• **Languages Spoken:** English (Professional), Marathi (Native), Hindi (Conversational)
